

## **College Credit Plus Pathway: Ohio Transfer Module**

### **COLLEGE CREDIT PLUS PROGRAM**

Providing students with dual credit opportunities is a proven educational strategy. Effective dual credit systems have been linked to positive student impacts at both secondary and postsecondary levels. College Credit Plus has the capacity to create systemic collaboration, which will be necessary in order for Ohio to meet its college-ready, career-ready, and postsecondary completion goals. This program also has the added benefit of creating a reliable and seamless bridge for students to transition from high school into postsecondary endeavors.

Hocking College continues to be a leader in dual enrollment partnerships as we provide pathway opportunities and support to our many high school partners.

### **OHIO TRANSFER MODULE (OTM) CAREER PATHWAY:**

The Ohio Transfer Module (OTM) is a subset or a complete set of general education requirements at Ohio public colleges and universities. OTM courses are guaranteed to transfer to any of Ohio's public institutions of higher education as an area credit, as well as equivalent courses in English and Mathematics.

To complete the OTM certificate, students need to take a minimum of 36-40 credit hours as outlined in the listed curriculum guide. This will require students to complete more than the minimum in one or more subject areas. Completion of the full Hocking College Ohio Transfer Module will automatically meet the requirements of individual Transfer Module course(s) or the full Transfer Module at another Ohio public college once the student is admitted. The courses will transfer as a block of general education courses. Non-completion of the full Ohio Transfer Module will be reviewed on a course by course basis.

Students who take AP courses in high school and have a sufficient score on an AP exam have the opportunity to send those credits to Hocking College for credit evaluation. AP course credit will count towards the completion of a Transfer Module.
