

The GENERAL NEW

March/April 2019 SHERIDAN MIDDLE SCHOOL

Hello SMS families! Hopefully spring and sunshine is right around the corner.....

The Sheridan Middle School Math Team, made up of, Josiah Hamilton, Trinity Nobles, Casey Johnson, Ciara Conkey, Rilea Waite, Kendall Drury, Aiden Duke and Brandy Bailey, represented us at the Muskingum Valley ESC for the Gifted Mathcounts Competition. Congratulations Generals, you make us very proud!

The National Junior Honor Society collected canned food items for our local food pantries in March. We encourage all Generals to contribute what they can in our effort to replenish our local community pantries after the Holidays.

We are collecting shoes for needy kids. Anyone wanting to donate new or gently used shoes should send them in to the Middle School by May 15.

Our Ohio History Club for 7th and 8th graders, will be traveling to Ohio University, Zanesville to compete with students across Ohio. This is a research based project designed for students in grades 6-12. Each year, students pick a topic based on a theme set by the National History Day Organization and develop a project to illustrate the historical significance of the topic.

8th Grade students will be traveling to Washington D.C. in April. Students should be finalizing payments and preferences with Mr. Smith.

As we enter the month of April, we are approaching a busy time as grade cards, state testing and spring sports approach. Please view "Dates to Remember" for a complete list of upcoming events.
