

Dear Families,

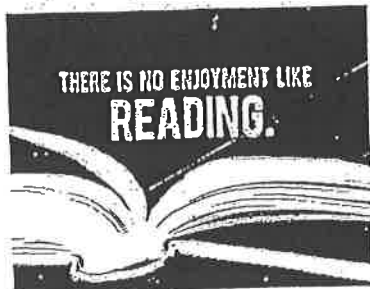

As we welcome your children to Glenford Elementary, we wanted to share a wonderful reading opportunity with you. We are offering a summer reading program that will allow your child to win an AWESOME prize when they return their forms at the beginning of school! Reading over the summer is essential for children to have a great start in kindergarten.

This summer we would like for you and your child to read as much as possible. Parents are encouraged to read to their children from books, comics, magazines or anything else that sparks an interest! Included in this packet you will find capital and lowercase letter identification activities, as well as a book log. Children may color on the charts on the back of the letter activities each time they practice all of their letters. Feel free to use the set of flashcards we provided (or anything else you may have at home). They may also color a square on the bumble bee reading log each time they practice reading or are read to throughout the summer.

Once the charts are filled in, your child will earn an AWESOME prize! Send your child's charts in with them on the first day of school to be collected by their teacher.

We hope you enjoy your summer and we appreciate your help with encouraging successful readers for this kindergarten school year!

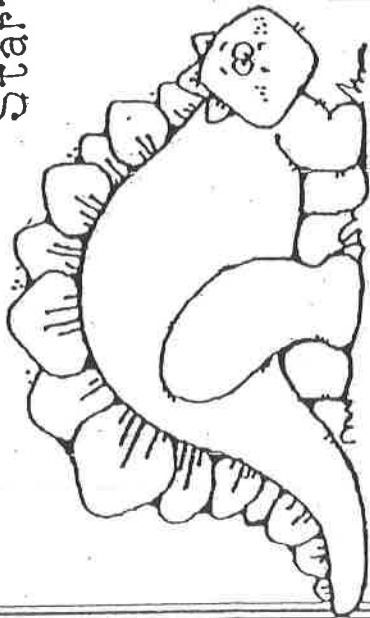

Your Partners in Education,  
The Kindergarten Teachers

# Uppercase Letter Dinosaur Dig

As your child digs from start to finish through the letters, color in a box on the chart on the back.

I'm ready for Kindergarten!

I *buzzed* through \_\_\_\_\_ books this summer!

Color a square for each book as you and your child read together. :

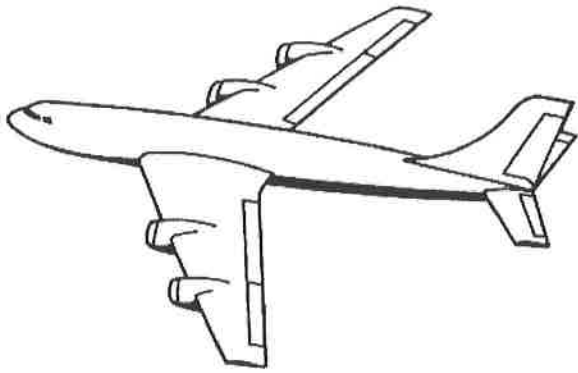

A large, wavy, caterpillar-shaped grid divided into many small squares, intended for coloring and recording book titles.
